

## **Arius Technology Appoints VP Engineering & Manufacturing**

VANCOUVER, British Columbia, Canada, November 3<sup>rd</sup>, 2014 -- Arius Technology Inc. is pleased to announce the appointment of Mike Jackson to the position of Vice President of Engineering & Manufacturing where he will oversee engineering development the Arius3D line of 3D color scanners as well as manufacturing operations in the Vancouver area.

"We are delighted to have Mike join the Arius team as we scale up our operations in preparation of launching our next generation mobile color scanner" stated Paul Lindahl, Arius President and CEO. "Mike's background in new product development coupled with his great breadth of experience in optical engineering is a perfect fit as we look to expand our product line and position Arius as the preeminent supplier of color laser scanners."

Dr. Jackson brings more than 25 years of experience developing and commercializing precision electro-mechanical and advanced material technologies. He led a worldwide R&D team of 250 at Creo/Kodak developing precision pre-press equipment for a \$350M business unit serving the printing industry. He has also co-founded and played executive roles at two venture-backed technology start-ups.

Dr. Jackson graduated from the University of Alberta in 1985 with a B.Sc. in Electrical Engineering and from the Caltech in 1991 with a Ph.D. in Applied Physics. He is a Professional Engineer in the Province of British Columbia, a Senior Member of the Institute of Electrical and Electronics Engineers and is an inventor on six issued US patents.

### **About Arius Technology**

Arius Technology is a leader in laser-based optical scanning systems for three-dimensional digitization of physical objects used in documentation, inspection, reverse engineering and 3D printing. Its flagship product, the Arius3D<sup>®</sup> Identik<sup>™</sup> 300R auto-synchronized spot laser scanner, is the only 3D scanner using direct laser color measurement to quantify and collect points containing both geometry and color. Arius is a privately held Canadian company headquartered in Vancouver, BC. For more information on Arius, visit: [ariustechnology.com](http://ariustechnology.com)
